

**Central Texas Section**

## **Call for Posters**

### **Central Texas ACS Centennial Celebration**

The Central Texas Local Section of the American Chemical Society is celebrating its 100th birthday this year! On Friday, November 10th, we will host our formal celebration at the Oasis Restaurant on Lake Travis beginning at 4:00 pm and culminating with the Centennial Banquet. We have an outstanding program planned, with several guest speakers and local area recognitions.

We would like to invite you to help celebrate the broad and significant contributions that chemistry has made to central Texas. A portion of the program will be a poster session (4:00 to 5:30 pm), and we invite poster submissions from the broader chemical community to celebrate the distinguished record of chemistry in central Texas.

A poster could highlight:

- research contributions from undergraduate and graduate students,
- outreach activities,
- entrepreneurship,
- K-12 education,
- the history of a particular chemist or the history of the region,
- the history of a company, university, or agency, or
- any other subject that might appeal to a broad audience of chemists and chemistry enthusiasts.

Please share this information with your colleagues. If they have any questions, would like additional information, or would like to commit to preparing a poster, please have them contact me, Dr. Debra Feakes, directly by email ([df10@txstate.edu](mailto:df10@txstate.edu)) from the local universities, and from local industry.

*The local section gratefully acknowledges support from the ACS Local Section Innovative Grants Program and from the Senior Chemists Committee.*
